INTRODUCTION

The **School Profiles 2006-2007** is the thirteenth in a series of annual publications.

This issue presents a comprehensive list of public schools, by parish, school type, classification, percentage attendance, capacity, student enrolment, number of teachers and number of pupils per teacher.

With the exception of percentage attendance, the profiles for the academic year 2006/2007, presented in this issue, were extracted from statistical returns made by the schools on **Census Day**, Monday, October 9, 2006. The percentage attendance presented refers to the Average Daily Attendance for that year.

It is our hope that the information presented in this publication will be of use to you. Thanks to the Acting Director, Planning and Development Division; the Assistant Chief Education Officer, Policy Analysis, Research and MIS; the MIS Officers; Principals; Education Officers; the Statistician and the Data Preparation Officers for their co-operation and assistance in making this publication possible.
